Eyes Glow Therapy

Treatment against swellings and dark circles around the eyes with a combination Ameson Mesotech Silicium 0.5%, Biogenic Caffeine 40% & AA2G 20%.

Silicium is a part of elastin and collagen and controls the proliferation of fibroblasts, while promoting regeneration of elastic and collagen fibers. In its absence, it causes premature degradation of the connective tissue resulting in sagging skin. It binds moisture in the skin, and acts as an antioxidant by preventing premature aging. Due to its detoxifying properties, it is used against bags under the eyes ("puffy eyes"). At the same time, it functions as a carrier to promote penetration of active ingredients. Biogenic Caffeine (encapsulated form of caffeine) helps to control water retention, tightens and tones skin, improves blood microcirculation and reduces dark eye circles. AA2G is stabilized Vitamin C with glucose. The AA2G with its gradual release of vitamin, acts as a free radical inhibitor, reduces swelling and irritation, while reducing expression wrinkles.

Action:

Brightening, detoxifying, anti-swelling, firming, regenerating, promoting penetration of active ingredients, UV protection.

Indications:

Eye bags, dark circles.

Contraindications:

Skin with open wounds, moles, keloids, sunburn, overly sensitive skin, healing problems, blood coagulation disorders and problems, dermatitis, in cases of acne and inflammatory rosacea, allergies to any ingredients of the products, pregnancy, lactation, herpes, vitiligo, psoriasis, taking isotretinoin for the last six months, malignancies, chemotherapy or radiotherapy, history of autoimmune diseases, diabetes mellitus and fever.

Key ingredients:

Silicium 0.5%, Biogenic Caffeine 35%, AA2G 20%

Recommended applications: At least 5-6, depending on the skin condition.

Duration of session: 15-20 minutes

Repeatability: Every 15 days

Maintenance: Every 45 days

Face Eyes Glow Therapy

Step 1: Cleansing

Clean the face and neck with Elements Sensitive Cleansing Gel, or the appropriate cleansing product depending on the skin type. **(Duration: 1 minute)**

Step 2: Enzymatic Exfoliation - Optional

The choice of enzymatic peeling on the delicate skin around the eyes, offers gentle exfoliation without causing irritation. It has brightening effects and acts as an eye protection.

Exfoliating Enzyme Mask (1.5g) & Exfoliating Enzyme Lotion (3ml) (eye contour area)

Apply the Exfoliating Enzyme Mask and Exfoliating Enzyme Lotion on the area around the eyes. Use: Mix 1.5gr powder with 3ml lotion in a bowl to make a paste and then apply it around the eyes with a soft brush. **(Duration: 7 minute)**

Remove the enzyme mask from the area around the eyes 7 minutes after its application.

Step 3: Mesotherapy

Silicium 0.5% (0.5ml), Biogenic Caffeine 35% (0.5ml), AA2G 20% (0.5ml)

Take 0.5ml Ameson Mesotech Silicium 0.5%, from the vial using a sterile syringe, then 0.5ml from the vial Ameson Mesotech Biogenic Caffeine 35% and 0.5ml from the vial Ameson Mesotech AA2G 20% mixing them. Sterilize the area around the eyes with a special skin antiseptic and a sterile gauze. Prepare the Micropen with the appropriate disposable needle tip and adjust the penetration length length to 0.25. Spread the material on the area under the eyebrows, immobilize the skin with the free hand by stretching it and apply the Micropen according to the direction of the eyebrows with the stamping method, i.e. lifting each time and not dragging on the skin up to 4 times. Then, lift the excess skin and repeat the procedure. Continue the therapy in the same way under the eyes.

***Caution: the use of Micropen is prohibited on the movable eyelid.**

Tip: Only RNANO needles can be dragged on the skin vertically, horizontally and with the spiral method.

(Total duration: up to 5-10 minutes)

Attention: Sterile gloves and face masks are recommended during the procedure to ensure hygienic conditions.

Step 4: Calming / Hydration

4a. Bio-Cellulose Mask (1 item) - Optional

Apply the specialized Bio-Cellulose Mask, which offers immediate hydration, cooling sensation and relief of irritated skin and fully adapts to the shape of the face. Its high biocompatibility instantly and evenly reduces the feeling of inflammation and erythema on the skin. First, remove the mask from the sachet and unfold it.

Remove the protective film on one side and apply the mask to the face, eyes, and nose according to existing notches. Then, remove the second protective film. Apply the remaining amount of serum from the sachet on the neck and over the mask.

Leave it for 15 to 20 minutes and remove. Apply any remaining amount of serum on the face with light movements until absorbed. **(Duration: 15-20 minutes)**

4b. Calming Bliss (2ml)

Then, apply 2ml of Calming Bliss, a product for immediate relief and hydration of irritated skin. **(Duration: 1 minute)**

(Total duration: up to 16-21 minutes)

Step 5: Sun protection

Apply Face Mineral Fluid SPF 50 or Face Mineral Fluid Tinted SPF 50 on the face and neck. **(Duration: 1 minute)**
